We would need the list to show the reference number from your database, the full site address, the dates of application, the description of the application, and the decision outcome. If the number of proposed dwellinghouse units and Unique Property Reference Number (UPRN) were readily available as part of any such list this would also be helpful.</p> <p>If possible, it would also be helpful to have an export from your planning database of any cases where there was a full planning permission for change of use for the same dates. We would only be interested in changes from another use to residential, but I don’t know how easy that is to pick out for you, but perhaps we can if just sent the wider list of change of use applications. This would help where some schemes may have done a prior approval as a fall back, then a planning permission which was implemented instead and so are not really PD-created schemes at all – in which case if we address match between the two lists, we can hopefully spot those too.</p>	04/08/2023	04/09/2023	04/09/2023 Full Disclosure	No exemption applied
