

List of registered memorial masons

April 2020 – March 2021

Only registered memorial masons are allowed to carry out work within the Council run cemeteries. Registered memorial masons are required to ensure that all memorial work they undertake complies with the Council's memorial masons' registration scheme and the Council's cemetery rules.

Our registration scheme helps ensure safe working practices are followed and one requirement is that the mason is registered with either of two national associations – NAMM (the National Association of Memorial Masons) or BRAMM (British Register of Accredited Memorial Masons).

Please contact the cemeteries and crematorium team if you have a query about any of the memorial masons listed below.
