Tackle the climate emergency

As well as making the Council a greener organisation, we will work with businesses and communities to ensure that our borough reduces its carbon footprint and that future generations are protected from climate change. We have a shared responsibility to act and there will be a real urgency to our response. While this is a real challenge it presents great opportunities to build a green economy, more active residents, less congestion, warmer homes, and a more efficient use of our resources.

Grow our local economy and deliver good jobs with fair wages for our residents

Our economy is doing relatively well compared to other areas, with lower levels of unemployment and higher levels of productivity. We have ambitious plans to build on this success with higher levels of growth, well supported businesses, dynamic town centres and excellent local skills. Our challenge is to make sure that more local people can access these local opportunities and secure good jobs.

Support children and young people to make the best start in life and achieve their full potential

Our borough is a great place to grow up for many but not for all. Our vision is for more children and young people to feel included, listened to and to live in safe communities. We will also do everything we can to support children, young people and families to go on to lead fulfilling lives whatever their circumstances.

Enable more adults to live longer, healthier and happier lives

The majority of our residents benefit from good health and wellbeing throughout their lives. However individuals from more deprived areas are more likely to be in poorer health and we need to think differently about how we meet the challenges of people living longer and maintaining good mental health. Joining up with our local NHS and care providers, we want to work closely with communities and build on people's strengths and capabilities to make this happen.

Make our neighbourhoods even better places to call home

Our local neighbourhoods are central to our quality of life and are places where people come together and contribute as a community. We will work with communities to ensure our neighbourhoods are safe, well maintained and we have good range of homes that meet a diversity of needs.

DATA PROTECTION STATEMENT

We require the information requested in this form to allow us to process your application. All information provided in support of an application, including personal details, will be held in a database. CWaC complies with strict security procedures in the storage and disclosure of your information. These procedures are in accordance with the principles of the General Data Protection Regs. 2018.
