C1 Insurance

C1.1 The Director of Corporate Services is responsible for preparing the Council's risk management policy statement on behalf of the Corporate Leadership Team (CLT), for promoting it throughout the Council and for advising Cabinet on the appropriate insurance cover.

C1.2 The Director of Corporate Services will maintain and administer the Council's insurances in accordance with the Risk Management Strategy & Risk Financing Strategy, agreed by Members, which describes the Council's approach to the financing of risk, its overall risk appetite and the level of funding available.

C1.3 The Director of Corporate Services is responsible for authorising the settlement or repudiation of insurance claims and associated costs. Advice will be sought from the Council's insurance solicitors and insurers.

C1.4 Directors are responsible for informing the Director of Corporate Services immediately of:

- (a) any insurance claims received;
- (b) any events which may result in an insurance claim against the Council;
- (c) the terms of any indemnity which the Council is required to give prior to entering into any contracts etc;
- (d) any new risks which might require to be insured, together with any changed circumstances affecting existing risks. Consideration should be given to new projects, new ways of working, and changes in legislation requiring new ways of delivery etc where the insurance impact is often overlooked;
- (e) changes to the assets insured by the Council;
- (f) changes to the responsibility of the Council.

C1.5 No new insurances may be taken out without prior consultation with the Director of Corporate Services.

C1.6 Directors must ensure the retention of documents in accordance with the corporate retentions policy and that there is co-operation with the Risk and Insurance Team in providing the correct documentation within the strict timescales of the Civil Procedure Rules when dealing with claims.

C1.7 Service budgets will be charged with the cost of legal penalties or losses incurred by the Council as a result of any failure to comply with the requirements of the Civil Procedure Rules and these Finance and Contract Procedure Rules relating to claims.

C2 Risk Management

C2.1 The Council's approach to Risk Management is that it should be effective in helping to optimise the balance between risk taking and control, maximising opportunities and encouraging innovation.

C2.2 Directors are responsible for ensuring the Risk Management Policy and Strategy is implemented and that the Risk Management framework operates within their Service. Risk Management should be embedded throughout the organisation at both a strategic and an operational level, through integration into existing systems and processes.

C2.3 There are several levels of risk register within the Council. There should be a movement of risks both upwards and downwards through the levels and treatment addressed at the most appropriate level of the organisation:-

- (a) Corporate Risk Register - contains risks that impact on the organisation's overall objectives either because of their frequency of occurrence across several services or the significance of the impact;
- (b) Service Risk Registers - contain strategic and operational risks that impact on the delivery of service objectives;

- (c) Team Risk Registers – contain operational risks that impact on the delivery of team priorities and act as a feeder for risks to be elevated to the Service Risk Register;
- (d) Programme/Project Risk Register – contain risks associated with individual projects. Due to the speed of project delivery risks are more likely to be more dynamic and more frequently monitored and reported.

C2.4 Directors are responsible for ensuring Risk Management is carried out at both an operational and strategic level in accordance with the corporate risk management framework.

C2.5 The Service Risk Register is a perpetual living document and should be reviewed annually to align with the relevant Service outcome plan. These risk registers will help to inform the Council's risk appetite and the Corporate Risk Register.

C2.6 Service Risk Registers will be monitored and reviewed quarterly and reported as part of the Holistic Reporting process.

C2.7 Directors will take account of and address corporate risks where appropriate within their Service Risk Register, and inform the Risk and Insurance Team of any Service risks that could be considered significant enough to highlight at a corporate level.

C2.8 The Corporate Risk Register is maintained by the Director of Corporate Services. It will be reported to the Corporate Leadership Team on a regular basis.

C2.9 Audit and Governance Committee will also receive risk management reports on a regular basis to monitor the effective development and operation of risk management in the Council. The Committee provides independent assurance of the adequacy of the risk management framework and the internal control environment.

C3 Business Continuity

The Constitution

Part G – Appendices - Section G4C:- Finance and Contract Procedure Rules – Risk Management and Control of Resources - Updated 18 May 2017

- C3.1 The Corporate Leadership Team is responsible for determining the Business Continuity Strategy and ensuring it is compliant with the Civil Contingencies Act 2004. Directors are responsible for implementing it, and monitoring and reviewing its effectiveness.
- C3.2 The Director of Corporate Services develops the strategy and supporting framework on behalf of the Corporate Leadership Team.
- C3.3 Audit and Governance Committee is responsible for approving the Business Continuity Strategy and reviewing its effectiveness as part of the risk management framework and the internal control environment.
- C3.4 Directors are responsible for ensuring that arrangements are in place to ensure the continuity of service delivery in the event of a disruptive incident. This is managed via the development of robust Business Continuity Plans which are regularly maintained and tested in accordance with the Business Continuity Strategy.
- C3.5 Directors are responsible for ensuring that arrangements/contracts for significant areas of service provision include requirements for contractors/partners/suppliers to have robust and tested business continuity plans. This should include the ongoing monitoring and compliance with this requirement via contract performance management and, where necessary, joint exercises.

C4 Internal Controls

- C4.1 Internal control refers to the systems of control devised by management to help ensure the Council's objectives are achieved in a manner that promotes economical, efficient and effective use of resources and that the Council's assets and interests are safeguarded.
- C4.2 The Director of Corporate Services is responsible for advising on effective systems of internal control. These arrangements need to ensure compliance with all applicable statutes and regulations, and other relevant statements of best practice. They should ensure that public funds are properly safeguarded

and used economically, efficiently, and in accordance with the statutory and other authorities that govern their use.

C4.3 It is the responsibility of Directors to establish sound arrangements for planning, appraising, authorising and controlling their operations in order to achieve continuous improvement, economy, efficiency and effectiveness and for achieving their financial performance targets.

C5 Internal Audit

C5.1 The requirement for an internal audit function for local authorities is implied by Section 151 of the Local Government Act 1972, which requires that authorities “make arrangements for the proper administration of their financial affairs”. The Accounts and Audit Regulations 2015 more specifically require that a “relevant authority must undertake an effective internal audit to evaluate the effectiveness of its risk management, control and governance processes, taking into account public sector internal auditing standards or guidance”.

C5.2 The Public Sector Internal Audit Standards (PSIAS) defines Internal Audit as “an independent, objective assurance and consulting activity designed to add value and improve an organisation’s operations. It helps an organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes”.

C5.3 The Internal Audit team (part of the Finance Service) delivers this function within the Council.

C5.4 The Accounts and Audit Regulations 2011 require the Council to review the effectiveness of its governance framework, including the system of internal control, on an annual basis and report the results in an Annual Governance Statement. This statement must provide a description of the governance framework within the Council, a description of any work undertaken to assess its effectiveness, and any significant governance weaknesses identified.

C5.5 To contribute to the production of the Annual Governance Statement, the Senior Manager for Internal Audit is responsible for planning and delivering a programme of independent review of the Council's activities, the scope of the programme being based on the Council's objectives and an assessment of the risk which may affect the achievement of these objectives.

C5.6 The Senior Manager for Internal Audit is also responsible for reporting to those charged with Governance and currently satisfies this requirement by presenting an annual report to the Audit and Governance Committee, summarising the audit plan for the coming year and a commentary on audit activity which is completed or in progress. Quarterly reports setting out progress against the annual audit plan and delivery against its key performance indicators are also taken to the Audit and Governance Committee. In addition, any matters of material importance in relation to audit matters are also reported to the Cabinet and Audit and Governance Committee.

C5.7 Audit staff will have full access to all premises, staff, assets, records and third party fund transactions as is necessary to conduct their reviews. With regards to organisations participating in partnering arrangements, including alternative delivery vehicles where provided for in the contract or service level agreement, Audit staff shall have such access to premises, staff, assets and records of the partner as is necessary for the purposes of the partnering arrangement. Partners will be required to grant reasonable access when requested and details of such access should be agreed with the partner and set down in the Partnering Agreement. Where the right of access has not been specified in existing arrangements then appropriate discussions with partners should take place. Similar rights of access should be determined as part of the establishment of any alternative delivery vehicles, and should be similarly agreed and documented in the contract or service level agreement.

C6 External Audit

C6.1 The basic duties of the external auditor are governed by section 15 of the Local Government Finance Act 1982, as amended by section 5 of the Audit Commission Act 1998.

C6.2 The Local Audit and Accountability Act 2014 (the Act) established new arrangements for the audit and accountability of relevant authorities and these new arrangements include the ability for local authorities to appoint their own local (external) auditors via an 'auditor panel'. An auditor panel can be established individually or jointly with one or more other authority.

C6.3 The Council may, from time to time, also be subject to audit, inspection or investigation by external bodies such as Ofsted or HM Revenue and Customs, who have statutory rights of access.

C7 Preventing Fraud and Corruption

C7.1 The Director of Corporate Services is responsible for the development and maintenance of an Anti-Fraud and Corruption Strategy.

C7.2 The Council has an approved Anti-Fraud and Corruption Strategy which places responsibility for maintaining an anti-fraud culture with all Members, Managers and individual members of staff. Any matters which involve, or are thought to involve, any fraud or other significant irregularity involving Council assets or those of a third party fund, must be notified immediately to the Fraud and Investigation Manager, in conjunction with other officers detailed in the Council's Anti-Fraud and Corruption Strategy, who will decide what steps are necessary.

C7.3 In line with the Anti-Fraud and Corruption Strategy, the Director of Governance in their role as Monitoring Officer will, in consultation with the appropriate Director, decide whether any matter under investigation should be referred to the Police or appropriate enforcement agency following advice from the Fraud and Investigation Manager.

C8 Assets

C8.1 In the context of these Rules, assets are defined as the resources, other than people, that the Council uses to deliver its service functions. Assets include buildings, land and infrastructure; furniture; equipment; plant; stores and “intellectual property” such as computer software, data and information of all kinds.

C8.2 Directors are responsible for the care, control and proper and economical use of all assets used in connection with the operation and delivery of their Services. Proper records should be maintained for these assets, together with appropriate arrangements for their management and security.

C8.3 Directors are responsible for ensuring that assets are used only for official purposes and that all appropriate rights, licenses and insurances are obtained.

C8.4 Directors are responsible for ensuring that all computer software used is properly licensed.

C8.5 Directors are expected to have policies in place for:-

- (a) the effective disposal of surplus assets;
- (b) asset replacement programme;
- (c) compilation of and regular review of asset inventories.

C9 Property

C9.1 The Council’s approach to property asset management is based on two main principles:-

- (a) Property is a corporate resource, owned by the Council, not by individual Services. This principle underpins the fact that property is one of the Council’s most expensive resource and that it needs to be managed proactively to support service delivery and improvement across all Services;

- (b) Property is held to support the delivery of the Councils corporate objectives. This is to be delivered through a rigorous policy of property review and the disposal of any properties that are no longer required to meet corporate objectives.

C9.2 The Council's policies, aims and objectives relating to property asset management are explained further in the Corporate Property Strategy and Asset Management Plan.

C9.3 Property assets are comparatively "illiquid" and changes necessarily take time to implement. Directors should be aware of this when planning new initiatives or changes to service delivery patterns and must ensure that the Director of Place Strategy is consulted at the earliest possible stage of the planning process in order that appropriate advice and support can be given.

C9.4 Directors are responsible for ensuring that property under their day to day control is occupied/used in accordance with all appropriate legal and regulatory requirements and that nothing occurs which might diminish the value of the asset. Particular care is required when carrying out alterations to a building and where any form of shared use with another organisation is planned. The advice of the Director of Corporate Services and Director of Place Strategy must be obtained before this is permitted.

C9.5 All property acquisitions, lettings and disposals must be negotiated and approved in accordance with the Property Scheme of Delegation with key thresholds outlined in the table below. The Director of Place Strategy will be responsible for the negotiations of all such transactions.
